Google Workspace and Cloud Identity Subprocessors

Third-Party Subprocessors

Google and its affiliates engage the third-party entities in the table below to perform limited activities in connection with the Google Workspace Core Services and Cloud Identity Services. The table shows what activity each entity performs and indicates if an entity is only relevant to a specific Service. More information about each activity is provided directly below. This explains the limited processing of Customer Data the entity is authorized to perform.

Technical Support: Customer-initiated technical support:

- in the case of Google Workspace Services as described in the [Google Workspace Technical Support Services Guidelines](#).
- in the case of Cloud Identity Services as described in the [Cloud Identity Technical Support Services Guidelines](#).

Assured Support: Customer-initiated technical support as described in the [Google Workspace Technical Support Services Guidelines](#). If Customer chooses to enable [Assured Controls](#) with a technical support location requirement, then only Subprocessors listed as performing Assured Support for locations permitted under that control package will be engaged to provide technical support to Customer.

These Subprocessors do not have access to Customer Data stored or processed by the Services. They only have access to Customer Data if Customer explicitly elects to enable such access in the course of a support case (e.g., by granting access to a Google Doc, Google Sheet, or Google Drive folder).

Security Risk Detection: Human review of indicators of account compromise or abuse. The Subprocessor only accesses Customer Data of accounts suspected of compromise or abuse and access to Customer Data is limited to suspicious search terms.

Entity name	Relevant Service(s)	Activity	Country where processing is performed	Registered address	Country of registratio

Accenture International Limited	All Google Workspace Core Services and Cloud Identity Services	Technical Support	Bulgaria, Canada, India, Israel, Japan, Malaysia, Mexico, Philippines, Romania and United States of America	1 Grand Canal Square, Grand Canal Harbour, Dublin 2, D02 P820	Ireland

Google Group Subprocessors

Google engages the Google Affiliates in the table below to perform limited activities in connection with the Google Workspace Core Services and Cloud Identity Services. The table shows what activity each entity performs and indicates if an entity is only relevant to a specific Service. More information about each activity is provided directly below. This explains the limited processing of Customer Data the entity is authorized to perform. The ultimate parent company for all Google Group Subprocessors listed below is Google LLC, which is itself a subsidiary of Alphabet Inc.

Data Center Operations: Operates and maintains the Google data center and equipment that stores Customer Data. Subprocessor personnel do not require access to Customer Data to perform this activity.

Service Maintenance: Software and systems engineering, maintenance and troubleshooting. In the course of performing this activity the Subprocessor may require limited, authorized access to Customer Data e.g. to remediate technical issues.

Technical Support: Customer-initiated technical support:

- in the case of Google Workspace as described in the [Google Workspace Technical Support Services Guidelines](#)
- in the case of Cloud Identity Services as described in the [Cloud Identity Technical Support Services Guidelines](#).

In the course of performing this activity, the Subprocessor may require limited, authorized access to Customer Data to respond to Customer-initiated requests.
